

Tricyclic Medium-Speed Micro powder Mill technical parameters

Model/Number	HXM-1021		HXM-800	
	Productivity (kg/h)	Electricity Consumption (kw/h)	Productivity (kg/h)	Electricity Consumption (kw/h)
400	600-7000	22	4000-5000	27
800	3000-3500	45	1800-2100	60
1250	2000-2500	70	1200-1500	95
1500	1800-2000	73	1000-1200	110
1800	1500-1800	90	800-10000	136
2500	1200-1300	120	600-800	175
3000	900-1100	145	500-700	200
Note	<p>(1)The material used for the parameters is calcite and the feeding size is $\leq 10\text{mm} \leq 10\text{mm}$</p> <p>(2)The materials from different places will be a bit different, so the parameters above are just for reference.</p>
